Diplôme d'études en langue française DELF A2.1 (2015)

**Girona, Spain**

**June 2014-15**

## COVER LETTER

Dear HHRR,

I am a 20-year-old with a deep passion for technology, which has driven my interest in understanding the processes behind the devices and systems we use daily. My educational journey, which includes secondary school and high school, led me to explore vocational education in Administration and Finance, though I realized early on that my true interest lay elsewhere.

Guided by my father's experience in programming, I began taking online courses in programming, which ignited a genuine enthusiasm for the field. This newfound passion led me to complete a PHP bootcamp, where I earned a certificate, and subsequently, I pursued a Higher National Diploma in Application Development (DAM). However, I decided to shift my focus away from video game development, as it did not align with my core interests.

I am now eager to apply my programming skills in a professional setting and contribute to a dynamic team. I am confident that my dedication and growing expertise in technology will make me a valuable asset to your organization.

Thank you for considering my application. I look forward to the opportunity to discuss how I can contribute to your team.

Sincerely,

Pol Miró de Quintana
